Finished Intelligence

Tailored Investigations Workstream

Intelligence tasking allows Nisos to investigate specific threats relevant to your organization at your direction with our expert guidance. Nisos adheres to the intelligence lifecycle while using curated, multi-faceted, global, proprietary, and licensed toolsets to develop the finished, actionable intelligence you need. Adversary Insights can scale up or down our services to meet your evolving needs, with the option to purchase additional workstreams as needed.

“Everything Nisos does for us is nothing short of magic. When we get the RFI response reports from them, we gather the whole team together, and we read the intelligence findings and analysis out loud. And then we all just look at each other. And we are in awe.”

Real Intelligence Answers to any Question

With Nisos on your team, you can send us RFIs, tasks, or questions and receive fast, expert insights delivered as easy-to-understand intelligence reports. We leverage our robust analytic methodology and tech stack to collect, store, enrich, and integrate global and client-specific data from a large variety of sources and tools. Our work helps arm your internal team with the intel they need to work faster and with more accuracy.

Nisos is an Extension of Your Team

Nisos brings unmatched expertise and experience to each client relationship, giving you ready access to seasoned intelligence professionals focused on your requirements. Truly an analyst-led partnership, you'll work directly with an elite team of practitioners supported by a cadre of Intelligence Advisors, analysts, and specialists behind the scenes.

Elevating the Power of Human Tradecraft

Nisos derives finished intelligence from the chaos of the open, deep, and dark web using tradecraft and advanced tools. With our proprietary intelligence workbench, Nisos' team of expert analysts can rapidly query a vast, curated collection of data sources, collection tools, and lawfully obtained breach records.

Investigations Workstream

Adversary Insights provides a single continuous Workstream for all of your RFI tasking needs. Task Nisos with Spotlight or Targeted RFIs, delivered on a sequential basis, for unlimited investigations with the flexibility to adjust as priorities evolve. Additional workstreams for simultaneous investigations or a more detailed look at an issue are available.

Deliverables Include:

One investigation workstream for unlimited sequential Spotlight or Targeted RFIs

RFI Types

Spotlight

Spotlight Investigations are for tactical questions with a basic level of complexity and are typically delivered within two (2) business days.

Targeted

Targeted Investigations focus on a single problem or threat actor and are typically delivered within five (5) business days.
