

Event Driven Investigations

Multidimensional fact-finding and intelligence reporting for answers to any security question.

Nisos' quick reaction, event-driven digital investigations provide the security insights you need to maintain business continuity in the face of a security emergency from fraudsters, nation-states, organized crime, terrorists, hacktivists, insiders, extremists, online belligerent, or competitors. Nisos investigations arm your internal team with the depth and clarity required to support administrative or legal action, including attributing malicious actors if necessary.

If you have a security event already underway or your security team is short on resources, Nisos can augment or even take over an investigation so you can get back to business.

Elevating the Power of Human Tradecraft

Nisos derives finished intelligence from the chaos of the open, deep, and dark web using tradecraft and advanced tools. With our proprietary intelligence workbench, Nisos' team of expert analysts can rapidly query a vast, curated collection of data sources, collection tools, and lawfully obtained breach records.

Tailored Investigations

Nisos investigations identify and assess client-specific risks, propose mitigation strategies, and determine the best responses. Intelligence taskings, called Requests for Investigations (RFI), are fulfilled based on the level of research and analysis required.

Spotlight Investigation

An investigation with an accompanying report that focuses on tactical questions with a basic level of complexity.

Spotlight Investigations are typically delivered within two (2) business days.

Targeted Investigation

An investigation with an accompanying report that provides research and analysis focused on a single problem or threat actor.

Targeted Investigations are typically delivered within five (5) business days.

Extended Investigation

An investigation with an accompanying report originating from a single problem or question, with analysts expanding into related concerns to provide a more complete report with recommendations and next steps.

Extended Investigations are typically delivered within two (2) weeks.

Deep Investigation

An investigation with an accompanying report focused on strategic problems, areas of concern, or a threat actor across platforms and personas, including an in-depth assessment.

Deep Investigations are typically delivered within four (4) weeks.

Common Event-Driven Investigation topics include:

- Response to cybercrime, espionage, e-crime, or fraud
- Counter disinformation, misinformation, or slander campaigns
- Counter brand reputation attacks
- Urgent named person(s) or facility protection issues

About Nisos

Nisos is the Managed Intelligence Company®. We are a trusted digital investigations partner specializing in unmasking threats to protect people, organizations, and their digital ecosystems in the commercial and public sectors. Our open-source intelligence services help security, intelligence, legal, and trust and safety teams make critical decisions, impose real-world consequences, and increase adversary costs.
