## A Partner Focused on Your Intelligence Needs

With Nisos in your corner, you can be confident in your ability to respond to advanced threats, even as your team evolves. You benefit from our broad experience and extensive toolset, so you'll always have the resources to fill knowledge gaps and address unique stakeholders' needs.

“Throughout the course of our relationship, (Nisos’) ability to conduct tailored evidence collection and analysis to aid in our security investigations has enabled us to mitigate significant risks across cybersecurity, disinformation, fraud, and physical security.”

## Elevating the Power of Human Tradecraft

Using tradecraft and advanced tools, Nisos derives finished intelligence from the chaos of the open, deep, and dark web. With our proprietary intelligence workbench, Nisos’ team of expert analysts can rapidly query a vast, curated collection of data sources, tools, and lawfully obtained data leak records.

## More than Actionable – Immediately Useful, Finished Intelligence

We’re not a feed or a platform; we deliver real answers – not just data. Nisos helps you quickly understand the who, what, when, how, and why behind each risk – without adding to the noise. Intelligence is delivered as an easy-to-understand report, summarizing discoveries, adding context, and providing clear recommendations to improve protection.

## Nisos is an Extension of Your Team

Nisos brings unmatched expertise and experience to each client relationship, giving you ready access to seasoned intelligence professionals focused on your requirements. Truly an analyst-led partnership, you'll work directly with an elite team of practitioners supported by a cadre of Intelligence Advisors, analysts, and specialists behind the scenes.
