

OSINT Monitoring and Analysis

Remove the noise. Identify your risks, how they impact you, and know how to respond.

OSINT Monitoring and Analysis delivers finished, actionable intelligence that helps your security team cut through the noise, identify critical threats, and respond confidently to reduce risk. With OSINT Monitoring and Analysis, Nisos works as an extension of your team to track and uncover targeted threats, disruptions, and other areas of concern that could impact your organization.

External Monitoring

Critical Alerting

Targeted Investigations

Monitor and Uncover Your Risks

Organizational risk is diverse, interconnected, and ever-changing. Shifting media opinions, global events, expanding operations to high-risk counties, M&A targets, and even workforce changes can increase your exposure. Protecting your reputation, your people, and your assets takes vigilance and know-how. That's why Fortune 500 companies entrust Nisos to help stay ahead of their most critical threats.

"We trust and look to Nisos when support is needed to address complex security challenges. Throughout the course of our relationship, their ability to conduct tailored evidence collection and analysis to aid in our security investigations has enabled us to mitigate significant risks across cybersecurity, disinformation, fraud, and physical security."

Andrew Stanley

Your Adversary Monitoring Partner

Threat actors have the upper hand. They choose their targets, timing, and tactics and operate in anonymity while honing their craft in the criminal underground. Nisos applies real-world experience to right the balance of power between you and the threat actors targeting your organization. Our team is comprised of cross-functional experts at disrupting adversarial operations.

We fuse robust data collection with a deep understanding of the adversarial mindset, enabling smarter defense and more effective response against advanced cybercriminals, nation-state actors, fraudsters, hackers, and insider threats.

Nisos is an Extension of Your Team

Nisos brings unmatched expertise and experience to each client relationship, giving you ready access to seasoned intelligence professionals focused on your requirements. Truly an analyst-led partnership, you'll work directly with an elite team of practitioners supported by a cadre of Intelligence Advisors, analysts, and specialists behind the scenes.

Elevating the Power of Human Tradecraft

Nisos derives finished intelligence from the chaos of the open, deep, and dark web using tradecraft and advanced tools. With our proprietary intelligence workbench, Nisos' team of expert analysts can rapidly query a vast, curated collection of data sources, collection tools, and lawfully obtained breach records.

More than Actionable – Immediately Useful, Finished Intelligence

We're not a feed or a platform; we deliver real answers – not just data. Nisos helps you quickly understand the who, what, when, how, and why behind each risk – without adding to the noise. Intelligence is delivered as an easy-to-understand report, summarizing discoveries, adding context, and providing clear recommendations to improve protection.

Deliverables include:

- Monthly monitoring reports
- Monthly review meetings with your dedicated Nisos team
- Immediate alerts for critical threats
- Two targeted Requests for Information (RFIs) per year

Investigate Deeper with Requests for Information (RFI)

OSINT Monitoring and Analysis includes two targeted Requests for Information (RFIs) per year for when you need to take a deeper look at an issue. Targeted RFIs allow your team to task Nisos analysts with deeper investigations into specific threats or concerns identified by Nisos while monitoring on your behalf.

Closed Group Monitoring

Threat actors may move to closed forums and members-only communities as their activities escalate. Nisos also offers Closed Group Monitoring for these cases. Using appropriate tradecraft and following legal guidance, we infiltrate and monitor closed forums where your adversaries lurk, giving you critical visibility when and where you need it most.

About Nisos®
