EXECUTIVE SUMMARY

Nisos researchers discovered a coordinated inauthentic network of 648 Twitter accounts that aim to influence perception of the Xinjiang Uyghur Autonomous Region and the use of Uyghur forced labor in Xinjiang. The Chinese Communist Party (CCP) has come under international scrutiny for the treatment of the Uyghur ethnic minority within Xinjiang. The CCP denies any wrongdoing.¹ Nisos researchers assess these coordinated inauthentic network accounts are attempting to both obfuscate negative messaging on the Twitter platform regarding Xinjiang and promote a positive narrative regarding Xinjiang and Uyghur treatment within the People's Republic of China (PRC). The activity is actively targeting a foreign audience.

The coordinated inauthentic network is pushing the narrative of opportunity and a positive livelihood of the Uyghur population within Xinjiang. It is also being used to deny foreign accusations of forced labor by the government within the region. The inauthentic network activity consists of positive messages and videos about life within Xinjiang and posts and videos denying the use of forced labor within the region.

Nisos researchers identified that inauthentic accounts utilize the common hashtag #xinjiang with a combination of accompanying hashtags: #happiness, #humanrights, #xinjiangcotton, #forcedlabor, and/or #travel. Inauthentic posts range from benign posts such as “Take a look at how to make crispy baked buns”² to “We are paid to work and the boss is very good. There is no forced labor at all. Western Anti China forces are nonsense!”³ Inauthentic users frequently tag high profile or political Twitter accounts to increase the reach of the post, such as @SpeakerPelosi,⁴ @VoCommunism,⁵ @ChrisCoons,⁶ and @Jingjing_li.⁷

Nisos researchers identified approximately 2,803 original tweets posted by the 648 discovered inauthentic accounts. Furthermore, Nisos researchers identified approximately 1,136 retweets and 773 quotes by the 648 accounts.

Inauthentic accounts posted as early as 6 November 2021 as uncoordinated, individual posts. The first coordinated identical inauthentic post occurred on 28 November 2021 by four separate inauthentic accounts. From 6 November 2021 to 4 April 2022, the inauthentic network posted at least 2,803 coordinated inauthentic posts from 648 separate Twitter accounts. Inauthentic accounts utilized Twitter Web App from 6 November 2021 to 17 March 2022. From 18 March 2022 to 4 April 2022, inauthentic accounts utilized both Twitter Web App and, to a lesser extent, Twitter for Android, illuminating the evolving tactics, techniques, and procedures of the network.

INAUTHENTIC ACTIVITY

The accounts discovered in the ongoing narrative campaign utilize similar tactics, techniques, and procedures:

- The majority (91.3%) of inauthentic posts occur during business hours in China Standard Time (9:00 AM to 7:00 PM).
- The majority (88.9%) of accounts were created after August 2021, indicating the network is relatively new and not utilizing a large number of existing or compromised accounts.
- Coordinated identical inauthentic posts are typically posted within several minutes of each other, indicating that the posts are created manually and the network is not utilizing automated account management.
- Coordinated inauthentic posts from December 2021 to February 2022 follow the same convention of utilizing a combination of three hashtags, always utilizing #xinjiang.
- Coordinated inauthentic posts since March 2021 have utilized two or fewer hashtags, but always utilizing #xinjiang.
- Inauthentic accounts frequently retweet, comment on, or quote posts from other inauthentic accounts and CCP officials (see Appendix B for list).
- Account profile pictures are derived from existing online stock images and publicly available photos.^{8 9 10}

CONTENT AND NARRATIVES

Background

The Xinjiang Autonomous Region was incorporated into the PRC on 12 December 1949 following the defeat of the Second East Turkestan Republic by the PRC's People's Liberation Army.¹⁴ In contrast to eastern China, which is overwhelmingly ethnic Han, Xinjiang is majority Turkic Uyghur and Muslim.¹⁵ This ethnic and religious contrast, as well as economic disparity, physical remoteness from Beijing and the central government, and historical autonomy of Xinjiang pose a challenge to PRC control over the region.

In 2014, the CCP implemented a renewed effort under the Strike Hard Campaign Against Violent Terrorism, to combat Islamic extremist terrorism and separatists within the region.^{16 17} Since 2014, Beijing has increasingly come under international pressure in response to alleged forced relocation, imprisonment and use of concentration camps, reeducation programs, elimination of Uyghur cultural and promotion of Han culture, relocation of ethnic Chinese Han majority into Xinjiang to supplant the Uyghur majority within the region, and genocide against Uyghur minorities.^{18 19}

The CCP vehemently denies these allegations²⁰ and has devoted significant soft power capital (shaping political opinion with positive appeal and attraction) to combating these allegations. Nisos researchers assess the information and videos pushed by the discovered inauthentic coordination network as a component of this soft power messaging.

Content

The discovered coordinated inauthentic network runs two separate but parallel messaging campaigns simultaneously.

- The first messaging campaign conveys Xinjiang and the Uyghur population as content and happy, and showcases unique cultural aspects of Xinjiang and the Uyghur population.
- The second messaging campaign counters accusations of forced labor and genocide by the PRC.

Posts

All posts by the coordinated inauthentic network feature a post, multiple hashtags with at least one hashtag of “#Xinjiang” included, and an accompanying video featuring individuals who represent everyday life in Xinjiang.

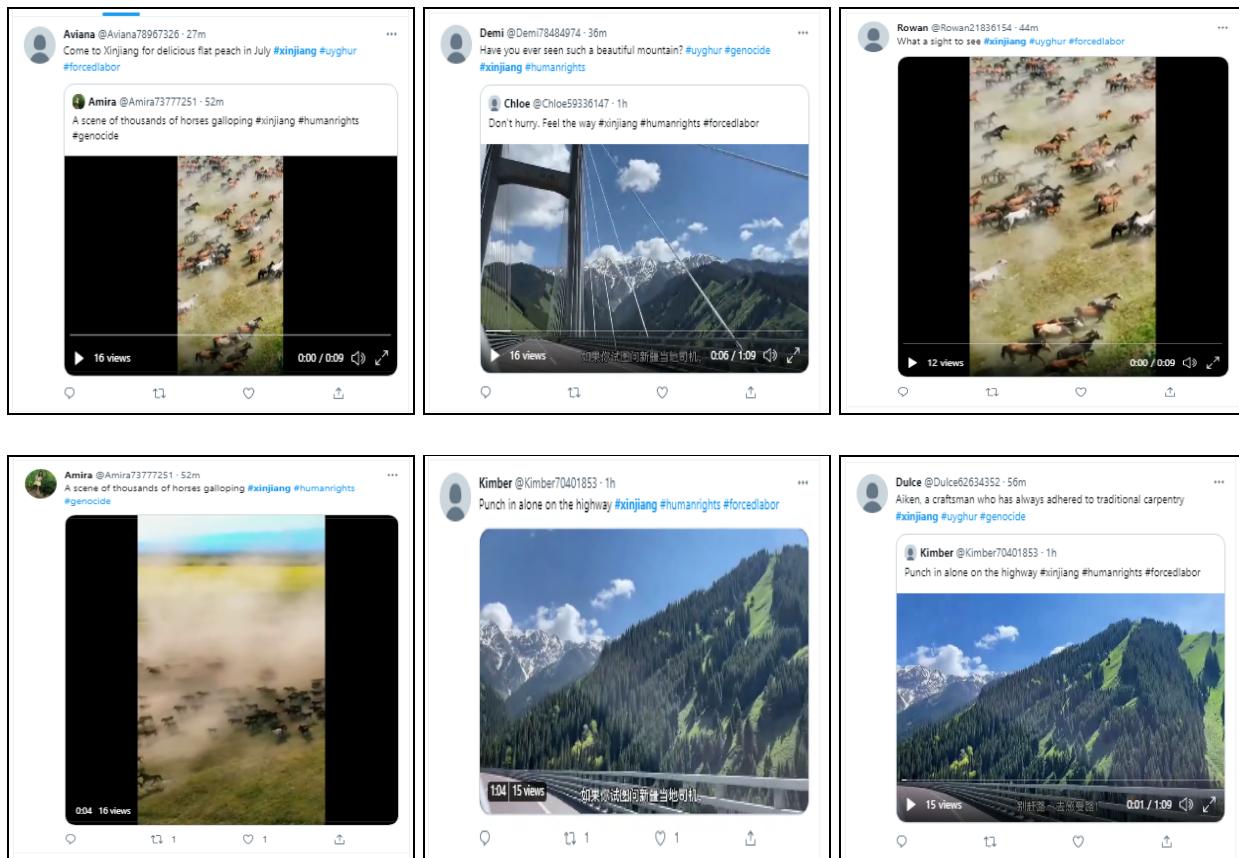

Graphics 4 - 6: Example of a coordinated inauthentic account post showcasing unique Xinjiang and Uyghur culture. These messages posted by the inauthentic account network highlight positive aspects of Uyghur life in Xinjiang.^{21 22 23}

Nisos researchers assess that this first messaging campaign is intended to obfuscate negative Twitter traffic regarding Xinjiang and Uyghur minorities. For example, the below graphic was the top search result yielded on 12 April 2022 for “#Xinjiang” under the latest results category:

Graphics 7 - 12: The six top search results yield under “latest” on Twitter for “#Xinjiang” on 12 April 2022. All accounts identified in the posts above are part of the coordinated inauthentic network.^{24 25 26 27 28 29}

Furthermore, the first post under top search results for “#Xinjiang” was a post by inauthentic user @Mikayla86192759 for a period of approximately twenty minutes on 12 April 2022.³⁰ Nisos researchers assess that these posts are both to convey positive messages about life in Xinjiang for Uyghur minorities and to obfuscate negative posts regarding the topic for an average Twitter user.

The second aspect of the coordinated inauthentic messaging campaign is aimed towards directly countering U.S. and others' accusations of forced labor and genocide within Xinjiang. These messages are released in a similar coordinated method, but are more aggressive, confrontational, and blunt in messaging.

Graphics 13 - 18: Coordinated inauthentic network activity posting "Beautiful Guli has a comfortable job in Xinjiang. She says there is no labor oppression in Xinjiang. It is the United States and anti china forces that slander Xinjiang."^{31 32 33 34 35 36}

The examples above represent six near-simultaneous posts within a six minute span on 5 January 2022. The posts feature identical narratives and hashtags. Two posts include mentions of @SenatorHagerty (Bill Hagerty, U.S. Senate, R-TN) and @RepMcGovern (Jim McGovern, U.S. Representative, D-MA, 2nd District). Both individuals are outspoken critics of the PRC and recently authored and sponsored

legislation unfavorable to the PRC. Representative McGovern passed the Uyghur Forced Labor Prevention Act³⁷ and Senator Hagerty passed a bill to promote domestic semiconductor production within the U.S. to curtail Chinese influence.³⁸

Videos

The videos contained in the inauthentic posts are typically one to two minutes in length, and feature an individual portraying everyday life in Xinjiang. The videos are spoken in either Mandarin Chinese or Uyghur with simplified Chinese and/or English subtitles. The videos prominently feature common Chinese stereotypes against Uyghurs, such as ethnic Uyghur dancing.^{39 40}

Graphic 19: Coordinated inauthentic post by @feilongzelai1 featuring ethnic dancing in an open forum in Xinjiang. The “fifty six nationalities” is a reference to China’s recognized 56 ethnic minorities. Inauthentic user @bitaoiyiqiu1 commented on the video to boost messaging.⁴¹

In addition to featuring positive messaging about life in Xinjiang and amongst Uyghur ethnic minorities, the featured videos also deny and counter accusations of forced labor and genocide within Xinjiang. Videos feature an individual discussing the positive aspects of their life, followed by a denial of forced labor, genocide, or anti-US and western sentiment. The videos frequently feature the term “US-led western anti-China forces.” Post by inauthentic user @EdnaGates17 features a video of a woman stating:

Graphics 21 & 22: Two separate screenshots from a video posted by inauthentic user @lmaNoble181 and two other inauthentic accounts denying the existence of forced labor in Xinjiang. In the video, the featured individual states “I have never seen such thing as forced labor” and “The US-led western anti-China forces spread rumors that there is forced labor in Xinjiang.”⁴⁴

The language of “US-led anti-China forces” is seen in official PRC government language regarding issues surrounding Xinjiang and Uyghur ethnic minority treatment. The State Council Information Office of the PRC’s September 2021 Xinjiang Population Dynamics and Data report states “in recent years, various anti-China forces have been accusing China of actions such as ‘forced labor...’” and “through the lie of ‘forced labor’, anti-China forces malign China’s actions...”⁴⁵

TACTICS, TECHNIQUES, AND PROCEDURES

Pattern of Life

Nisos researchers discovered that the majority (91.3%) of posts by inauthentic network accounts occur during working business hours (9:00 AM to 7:00 PM) under China Standard Time (GMT+8). Access to Twitter[.]com is blocked in China for average citizens, though Chinese state media and government officials frequently utilize the platform for foreign influence.⁴⁶ Though circumventing Chinese firewalls and accessing Twitter[.]com is possible within Mainland China with the use of a Virtual Private Network, the Chinese government has increased enforcement against posting politically sensitive material.⁴⁷ Therefore, Nisos researchers assess the coordinated inauthentic network is most likely a state-sponsored or controlled network.

Graphic 23: Scatter plot of time of day of posts when converted to China Standard Time (GMT+8). The majority of posts by inauthentic accounts coincide with the standard work day in China.

Nisos researchers identified that from 6 November 2021 to 17 March 2022, the coordinated inauthentic network exclusively utilized the Twitter Web App to post. From 18 March 2022 until 04 April 2022, the coordinated inauthentic network utilized the Twitter Web App and, to a lesser extent, Twitter for Android.
