

# Threat Landscape Assessment

*Reduce your risk. Understand your exposure so you can focus on prevention.*

**Nisos Threat Landscape Assessments deliver point-in-time visibility into risks specific to your organization, with the guidance and recommendations you need to respond with confidence. Threat Landscape Assessments provide a baseline of your organization's risk profile and serve as a practical resource for resource prioritization and security roadmaps. Our team of intelligence experts works with your team to understand your existing risk so you can prioritize, respond, and focus on prevention.**

Digital Threats

Physical Threats

Exposure Assessment

## Nisos Assessments are Different

Unlike the traditional threat intelligence approach of delivering large datasets that are not customized to your threat surface, Nisos uses our vast multi-source collection capability to uncover threats specific to your business. Nisos' threat assessments provide unparalleled visibility beyond the perimeter into physical security, cybersecurity, fraud, and trust and safety threats to provide actionable intelligence and prioritize mitigation recommendations.

“Nisos has an amazing team. They have assisted us tremendously as we have grown our security capabilities over the past several years. Their ability to adapt to our needs as we mature has made them a key and critical partner for us.”

**Senior Manager, Physical Security  
Uber Technologies, Inc.**

## Elevating the Power of Human Tradecraft

Nisos derives finished intelligence from the chaos of the open, deep, and dark web using tradecraft and advanced tools. With our proprietary intelligence workbench, Nisos' team of expert analysts can rapidly query a vast, curated collection of data sources, collection tools, and lawfully obtained breach records.

## Nisos is an Extension of Your Team

Nisos brings unmatched expertise and experience to each client relationship, giving you ready access to seasoned intelligence professionals focused on your requirements. Truly an analyst-led partnership, you'll work directly with an elite team of practitioners supported by a cadre of Intelligence Advisors, analysts, and specialists behind the scenes.

## More than Actionable – Immediately Useful, Finished Intelligence

We're not a feed or a platform; we deliver real answers – not just data. Nisos helps you quickly understand the who, what, when, how, and why behind each risk – without adding to the noise. Intelligence is delivered as an easy-to-understand report, summarizing discoveries, adding context, and providing clear recommendations to improve protection.

## Comprehensive, Adversary-focused Assessments

Security teams are constantly confronted with new and evolving threats. Nisos and our experts will help identify and prioritize digital and physical threats.
